CLOSEOUT MEMORANDUM

Case Number: I-16-0060-O

Page 1 of 1

We received an allegation that a Professor¹ at a University² who was the Principal Investigator (PI) on NSF awards, had falsified information in proposals and submitted false claims. It was alleged that the PI's proposals misrepresented the time commitments and participation of key personnel and laboratory facilities.

We reviewed the relevant proposals and award documents and interviewed NSF Program Officers and witnesses. Ultimately, the allegations were not substantiated.

This case is closed with no further action taken.
