

VIOLATION OF AMTRAK OPERATING RULES

October 21, 2016

CASE OIG-I-2016-525

On July 22, 2016, an Amtrak track inspector's employment was terminated as a result of a third safety operating rules violation that occurred on October 2, 2015. Our investigation revealed the employee and another Amtrak employee entered an area of protected track near Ann Arbor, Michigan, without authorization. The employee acknowledged that his actions constituted a safety operating rules violation.
