

# **Summary: Investigation of Allegations of Inappropriate Overtime at the Bureau of Reclamation**

**Report Date: October 6, 2015**

OIG investigated allegations a Bureau of Reclamation (USBR) manager authorized a dam safety engineer to work unlimited amounts of overtime. The complainant alleged that the overtime was unnecessary and was an effort to compensate the employee for a promotion that he did not receive.

We found no evidence that the overtime was unauthorized or inappropriate.

This is a summary of an investigative report that was issued to USBR for information only.
