

Summary: No Evidence a Bureau of Reclamation Contracting Official Violated Procurement Regulations

Report Date: May 27, 2020

Report Number: 19-0628

We investigated an allegation that a Bureau of Reclamation (BOR) contracting official manipulated the procurement process to favor a particular contractor and released proprietary contracting information.

We found no evidence that the contracting official manipulated the procurement process or that proprietary contract information was wrongfully disclosed.

This is a summary of an investigative report we issued to the BOR Commissioner.
