

Summary: Unfounded Allegations of Improper Valuing and Underpaid Royalties by a Utility Company

Report Date: April 23, 2020

Report Number: 19-0772

We investigated allegations that a utility company improperly valued gas produced from Federal mineral leases and underpaid mineral royalties to the Office of Natural Resources Revenue (ONRR).

We did not substantiate the allegations and found the utility company complied with Federal guidance when it calculated and paid Federal mineral royalties to ONRR.

This is a summary of a report of investigation that was issued to the Acting Director of the Bureau of Land Management and the Director of ONRR.
