Web Summary: OIG-WS-2022-322

An Amtrak conductor based in Miami, Florida, resigned from his position on April 12, 2022, prior to his administrative hearing. Our investigation found that the former employee violated company policies by stealing supplies from a contractor doing business with Amtrak. The former employee was captured on video entering the contractor's building, which is co-located at the Amtrak yard, and stealing the supplies and loading them into the trunk of his personally-owned car.
